DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 07/31/2006 has been considered by the examiner.

This application is in condition for allowance except for the following formal matters:

Claim Objections

Claims 3, 4, 8, 12 and 13 are objected to because of the following informalities: it is unclear that the limitations in the parentheses/brackets are part of the claims. Appropriate correction is required.

Allowable Subject Matter

Claims 1-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Independent claims 1 and 15 similarly define features of obtaining the weighting factor in compliance with a correction angle width and a projection data angle using for back-projection of the projection data; obtaining the projection data on which the weighting process based on the weighting factor relating to said projection data is implemented and weighted; and reconstructing the tomogram using the weighted projection data. These features in combination with other features in claims 1 and 15 are not taught or suggested by the art of record.

Claims 2-14 are dependent upon claim 1.

Claims 16-21 are dependent upon claim 15.
